7. Read the opening of a story below and complete it.

1×10=10

Once there was a poor woodcutter. He used to cut trees to maintain his livelihood
.....

8. Imagine, Your friend Arabi Hasan lives in 70/73, Mirpur Road, Dhaka. Now, write a letter to your friend describing your village.

1×10 =10

9. Write a dialogue between you and your friends about the bad effects of smoking.

1×10=10

10. Write a paragraph on 'A Day laborer'.

1×10=10

Daffodil International School, Chandpur

Annual Examination-2022

STD- VII

Subject: English 1st part

Time: 3 hours

Total Marks:100

1. Read the following text and answer the question that follows.

Bangladesh is already experiencing the adverse impacts of global warming and climate change. Summers are becoming hotter and the monsoon is irregular. There are untimely heavy rainfalls causing waterlogging and landslides. Among other impacts are frequent floods, river erosion, crop damage due to drought, prolonged cold spells, salinity of water in the coastal areas, etc.

Climate change has already started bringing disasters to Bangladesh. We remember the damage caused by the Aila in 2009. Climate change victims are increasing in number every day. The number of families and villages that lose their homes permanently to rivers every year is one of the highest in Bangladesh. An increasing number of people are suffering damage or loss to their property and some time life due to disasters caused by climate change. Following the climate change, the river bank and coastal erosion are increasing at an alarming rate. It is estimated that a 45-centimetre rise of sea level will flood almost 10.9 per cent of our territory and will make 5.5 million people of our coastal regions homeless.

Now, choose the correct answer to each question from the alternatives given and write the corresponding number of the answers in your answer script.

1×5=5

(i) There are untimely heavy rainfalls causing waterlogging and landslides. Here 'landslide' means

- (a) land area
- (b) landless
- (c) endless
- (d) mudslide

(ii) Which one of the following words has a similar meaning of 'adverse'?

- (a) difficult
- (b) advance
- (c) large
- (d) main

(iii) Summers are becoming hotter and the monsoon is irregular. What does 'irregular' mean?

- (a) occasional
- (b) timely
- (c) regularly
- (d) untimely

(iv) Climate change victims are increasing in number every day. What does 'victims' mean?

- (a) sufferings
- (b) sufferers
- (c) unhappiness
- (d) torture

(v) Climate change has already started bringing disasters to Bangladesh. Here 'already' means?

- (a) just
- (b) immediately
- (c) presently
- (d) now

2. Read the text and answer the following questions.

2×5=10

It is easy to understand now that the global warming and climate change are caused by humans on earth. If we make least use of energy, the earth will be least polluted. The golden rule is, 'Avoid machines as much as possible'. If your family has a car, use it less and walk to the shops. Walking and running are much more fun than sitting in a car. You may use bicycles too. You can save energy by changing your lifestyle. For example, you can often avoid the air-conditioning in summer and use hand fans instead. You can also use solar energy. It is free and more environment friendly. You can use energy-saving bulbs in your room. If you make a

garden, you can grow much of your own food. Do you know that if you eat fewer meat and dairy products, you can reduce greenhouse gas output? You can also save the environment by reducing, reusing and recycling the things you use. The most important idea is if you don't buy so many things in the first place, you don't need to reuse or recycle them.

You can also save energy by turning things off when you don't use them. People often leave lights, heating, air-conditioning, computers, TVs and gas burners on when they do not use them. Thus, they waste a lot of energy. Turning them off saves money too!

So, you can tackle climate change and live comfortably. There is plenty you can do. If we all work sensibly, we can save our lovely planet.

Answer the following questions.

- (a) Who are responsible for global warming and climate change?
- (b) When will the earth be least polluted?
- (c) How can we prevent environmental pollution?
- (d) How can we save electricity?
- (e) "Avoid machines as much as possible." Is this rule special? If yes/no, explain in your own language.

3. Read the text and answer the following questions.

Abraham Lincoln was born on February 12, 1809 in a log cabin in Kentucky. A cabin is a small house made of wood. When he was seven years old, his family moved to Indiana. In 1830, the family moved to Illinois. As a boy, Abraham Lincoln loved books. He always borrowed books from his neighbours. He read them for a short time and then took them back to their owners. He grew very tall. He was 6'- 4" tall. He weighed 180 pounds. Abraham Lincoln studied law in his free time. He was also interested in politics. He ran for political office. He lost in 1832, later, he was elected to the Illinois legislature 4 times in 1834, 1836, 1838 and 1840. People in the legislature make the law. He became President of the United States in 1861. He was the 16th President of the US. There was a war between the North and the South in the US. It was the Civil War. Lincoln called men to fight for the North. The North won the war. There were slaves in the South. Slaves work for no money. They must work. They are not free to do what they want. Lincoln set the slaves free in 1863. He let them go so they do not have to be slaves anymore. Lincoln is famous for that.

A. Complete the following table with the information given in the passage.

1×5=5

Abraham Lincoln	
His family moved to Illinois when he was	a).....
His height was	b).....
He became President at the age of	c).....
The war between the North and the South is known as	d).....
The slaves were set free in	e).....
